Optometrist/Ophthalmologist Vision Report Form For Monocular Vision Drivers

Visual Acuity

CAMS minimum visual acuity for a monocular vision driver is at least 6/6 (corrected or uncorrected) in one eye.

Is the visual acuity requirement met? Yes No

Visual Field

Confirmation of the applicant's visual field, in the form of Computerised Perimetry (Driving test) or Goldman Perimetry, demonstrating a visual field of at least 120 degrees along the horizontal meridian and within 10 degrees above and below the horizontal. A "Confrontation" field test is not sufficient.

Is the horizontal extent of the binocular field at least 120 degrees
Within ± 10 degrees of the horizontal meridian? Yes No
Is the cause of the loss of visual field entirely stable? Yes No

Colour Vision

Is colour vision normal? Yes No
If NO
Is the applicant a protan? Yes No
Use Medmont C100 test or anomloscope.
Is the Farnsworth D 15 test passed? Yes No

Two or more diametrical errors are a FAIL.
CAMS accepts applicants with defective colour vision who are not protans and who pass the D15 test as having sufficiently good colour vision to recognise the colour flags and signals used in car racing. Protans and those who fail the D15 test may apply to have a practical test of their ability to recognise colour signals and flags.

Contact Lenses

- Are contact lenses worn? Yes No
- Have they been worn successfully for at least 12 months? Yes No
- Are they worn daily? Yes No
- Can they be worn for at least 12 hours without discomfort?
Or loss of VA? Yes No
- Is the visual acuity standard met when wearing contact lenses? Yes No

A YES answer must be given to each question if the applicant is to be permitted to wear contact lenses during racing.

Refractive Surgery

Has the applicant had refractive surgery? Yes No

If YES, when?

One eye or both eyes?

Are the operated eyes stable? Yes No

Is there any post-surgical impairment of vision such as susceptibility to
Glare or reduced contrast sensitivity that may be a risk in competitive
Driving or some forms of competitive driving (eg. At night)? Yes No

Loss of Vision

Has the applicant experienced the condition which has led to the
Reduced visual fields for a minimum of 24 months (two years)? Yes No
